

CENTRAL WATER FILTRATION SYSTEM

EPWHCW

CLEAN, FILTERED WATER THROUGHOUT YOUR HOME

The ecopure® Central Water Filtration System is the next generation of water filtration. It's a new solution that allows you to experience the benefits of filtered water throughout your whole home with no maintenance. In fact, the Central Water Filtration System is so comprehensive it automatically cleans itself.

You can realize all the benefits of clean, filtered drinking, cooking, showering and laundry water without the cost and inconvenience of replacing filters. All of these features make the Central Water Filtration System the most efficient and most complete whole house water filtration system to improve the quality of your home's water.

BENEFITS OF THE CENTRAL WATER FILTRATION SYSTEM

Better for food preparation and cooking

Cleaner, softer hair and skin

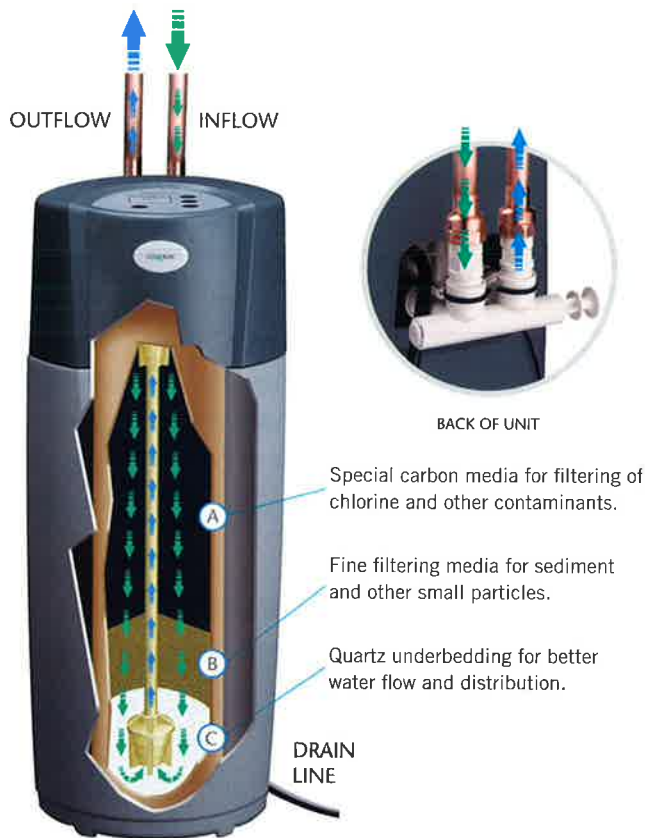

Great lasting water from any tap in your home

No bottles or filters to discard

SPECIFICATIONS & DIMENSIONS		MODEL EPWHCW
Rated Service Flow Rate		6.0 gpm
Pressure Drop at Rated Service Flow		10 psig*
Pressure Drop at 9.6 gpm		15 psig*
Water Pressure Limits (minimum / maximum)		30 - 125 psi
Water Temperature Limits (minimum / maximum)		40 - 120 °F
Drain Flow Rate		3.4 gpm
Rated Capacity at Chlorine Concentration** of:	0.50 ppm	2,280,000 gal.*
	0.75 ppm	1,520,000 gal.*
	1.0 ppm	1,140,000 gal.*
	1.5 ppm	760,000 gal.*
	2.0 ppm	570,000 gal.*
Sediment Removal with 30-40 micron particle size		95% or more
Sediment Removal with 40-50 micron particle size		99% or more

* From independent laboratory test data

** Typical residential chlorine concentration is 0.5 to 1.0 ppm

EPWHCW is tested and certified by NSF International against NSF / ANSI standard 42 for material safety and structural integrity requirements only. Filter screen is tested and certified by NSF International against NSF / ANSI standard for material safety only.

FEATURES OF THE ecopure® CENTRAL WATER FILTRATION SYSTEM

- Filtered water throughout your entire home
- Automatically cleans itself
- No filters to replace and no maintenance
- Delivers bottled water quality water without sacrificing household water pressure
- Fraction of the cost of bottled water
- Reduces these contaminants:

CHLORINE TASTE & ODOR

Chlorine taste & odor is a common contaminant in municipal water supplies. It affects the taste and odor of your water and can also dry out skin and damage hair.

SEDIMENT

Sediment filters remove sand, iron, silt and other solid items that may be in your water. Sediment can plug and wear out your plumbing system.

PHARMACEUTICALS

The ecopure® Central Water Filtration System has been tested to reduce residual pharmaceuticals in your drinking by up to 99%! Pharmaceuticals may not be present in all users' water.
